CAREER OBJECTIVE

Aspiring Data Scientist with expertise in **SQL** , **Python** , skilled in **Data Analysis** , **Statistical Modeling** , and **Data Visualization** . Strong analytical thinking and communication skills, with proven experience in transforming complex dataset into actionable business insights, improving reporting accuracy, and supporting data-driven decision making.

EDUCATION

Noida Institute Of Engineering And Technology , Greater Noida , Uttar Pradesh - 201306 , India Bachelors of Technology in Computer Science and Engineering	Aug 2024 - Present
Dayalbagh Educational Institute , Agra , Uttar Pradesh - 282006 , India Diploma in Information Technology	Apr 2020 - Mar 2023 GPA: 7.2/10
Ramdayal Kalavati Girls Inter College , Agra , Uttar Pradesh - 282006 , India 10th - High-School Degree	Apr 2019 - Mar 2020 Percentage(%): 81.5/100

INTERNSHIP

Intern at Kusum Healthcare Pvt. Ltd., Delhi Data Science	May 2022 - July 2022 Delhi, India
• Collaborated with the IT team under the mentorship of Data Scientist Mr. Abhishek Rakesh Gupta to support data-driven initiatives. • Worked extensively with company datasets using Microsoft Excel for data entry, analysis, and reporting tasks. • Gained hands-on experience with Python libraries such as NumPy and Pandas for data manipulation and processing. • Enhanced understanding of data handling, basic data analysis, and the workflow of IT systems in a corporate environment..	

PROJECTS

Air Quality Prediction Python ML	Mar 2025 - Present
• Built an Air Quality Prediction system using Python to forecast PM2.5 levels in Delhi based on historical air quality and meteorological data. • Trained and evaluated machine learning models such as Random Forest and Linear Regression, with a user-friendly web interface developed using Streamlit.	
Suicides Rate Prediction Python ML	Mar 2023 - May 2023
• Developed a predictive modeling project focused on data of India suicide counts to predict the rate of suicides. • Implemented and evaluated multiple machine learning algorithms to solve the regression use case, optimizing for maximum accuracy and performance.	

SKILLS

- **Soft Skills:** Leadership, Project Management, Problem Solving, Analytical Skills, Content Writing
- **ML:** Feature Engineering, Train Model, Evaluation, Predictive modeling
- **Programming languages:** C++, C, Python
- **Frameworks/Modules:** Flask(Backend), StreamLit
- **Databases:** MySQL, MongoDB
- **IDE:** VS Code, Jupiter Notebook

CO-CURRICULAR ACTIVITIES

- Qualified **GFG Hackathon** in second Year.
- Solved **DSA problems** over different platforms.
- Attended various seminars based on **AI / ML** , cyber security, and web development.
- Participated in **Smart India Hackathon (SIH)** , developing data-driven solutions and collaborating with cross-functional teams. .
